Ultimate skin protection equals antioxidants working from the inside and sunscreens working from the outside. When used together daily, SkinCeuticals topical antioxidant Vitamin C serums and broad-spectrum sunscreens provide ultimate protection INSIDE and OUT against UV-induced photo-aging and skin cancer.

PREVENTION: SkinCeuticals antioxidant serums are formulated at high concentrations and a low pH to effectively get into the skin and neutralize UV-induced free radicals from the INSIDE.

PROTECTION: SkinCeuticals sunscreens are formulated with combinations of sun filters, such as titanium oxide and zinc oxide to provide true broad-spectrum protection on the OUTSIDE.

WRINKLE TREATMENT WITH INSTANT RESULTS

If you want to enjoy a smoother, more youthful appearance, ask us about cosmetic dermal fillers. Cosmetic dermal fillers replace lost volume and restore contours to the skin to smooth away facial wrinkles and folds, such as the lines from your nose to the corners of your mouth. Cosmetic dermal fillers have also been effective to smooth away depressed scarring. Cosmetic dermal fillers will maintain its effect for at least six months or longer. This often depends on the individual. The results are instantaneous.

Cosmetic dermal fillers are injected into the skin in small amounts using a tiny needle. As with all injections, you may experience some discomfort. You may be prescribed a numbing cream prior to your appointment. After your treatment, you may have some swelling, redness, soreness and possible bruising.

Our special this month is cosmetic dermal fillers. Perlane was approved by the FDA in 2007 and is used in over 70 countries. Perlane maintains its effect for six months. Some patients maintained results for up to nine months in clinical trials. The price of Perlane is \$625 per syringe. Radiesse is also FDA approved. This wrinkle filler stimulates your body to produce new collagen. The results are long lasting in many patients. Results may last up to one year. The price of Radiesse is \$825 per syringe.
